Arber *Press Release*

Water, Wastewater & Reuse Engineers

JAMIE EICHENBERGER OBTAINS PROFESSIONAL ENGINEER LICENSE

LAKWOOD, COLORADO - Richard P. Arber Associates is proud to announce that Jamie Eichenberger, P.E. has obtained his professional engineering license from the State of Colorado. "This is a great milestone in Jamie's career. It demonstrates a level of professional skill and knowledge that is needed in our industry" Rick Arber said.

Jamie has over 4 years of experience in water treatment and distribution systems and wastewater treatment and collection system design. Jamie received a Bachelor of Science in Environmental Engineering and a Masters of Science in Environmental Science and Engineering from the Colorado School of Mines. Jamie recently completed the Reuse Water System Master Plan Update for the City of Aurora and provided services during construction for the City of Alamosa's Water Treatment Plant (Arsenic Removal) Project. Jamie is also serving as the current Vice President of the Rocky Mountain Water Environment Association (RMWEA). "The support and education I have received over the past four years with Arber Associates has led me to this important milestone in my career." Jamie said. "I am looking forward to what the next four years will hold."

Founded in 1981, Arber Associates is a professional consulting engineering firm serving municipal, special district, and federal clients. The employee-owned firm provides planning, design, construction administration, and alternative project delivery services for water, wastewater and reuse treatment systems. For more information regarding Arber Associates please contact Steve Ravel at 303-831-4700 or sravel@arber.com.
